plant engineering for all the foodstuff industry

About us

The owner Mr. Franz Krenn works in the engineering for all the foodstuff industry since 1975. In 1990 he was upgraded as production manager at the company ASCA Koch- und Räucheranlagen GmbH. In these times he developed the Autoklav-Sterimat from 400 to 1.000 Litre.

Mr. Franz Krenn founded the company F. Krenn in the year 1999. The company F. Krenn is specialized for the production from the Autoklav-Sterimat from 120-1.000 Litre. All Machines are of the state of the art.

The Company builds the Autoklav-Sterimat with a new heating since spring 2014. The new heating is an integrated steam generator. You can use the Machine as Autoklav-Sterimat or Kettle.

The Company F. Krenn built all Machines in Bad Rappenau. We can build every Machine of a special use .
